

He Still Moves Stones

Text: Philippians 3:7-11

Introduction: *The power of Easter impacts not only what happens when we die, but it should also affect how we choose to live. If it doesn't, then our faith is useless (I Corinthians 15:14,17&18). Paul wanted to know the thrill of Easter every day of his life and so should we. The most important thing in life is personally, intimately, and powerfully knowing Jesus Christ. Let's look at three more areas of our life Christ's Resurrection is still at work, three more stones He's still moving today.*
