

Pleasing God By Trusting Him

Text: Matthew 6:24-34

Introduction: *A 2003 Gallup Poll revealed that at least 90% of Americans still approve of the inscription, "In God We Trust" appearing on United States currency. But, our actions often speak louder than our words. The size of our personal debt and our national debt would seem to indicate we really don't trust God as much as we claim to. Another way to please God is by totally trusting Him in all things He tells us to do.*
